## Di Biase Hair Extensions USA

**Quality Above All!** Using only the finest quality 100% human Remy hair available, gives Di Biase Hair Extensions USA a huge advantage, since the hair closely matches the texture and look of European hair types. It lasts longer and looks better. The hair used for Di Biase Hair Extensions is painstakingly processed in the hand drawing techniques, which makes it possible to seamlessly join the natural flow of your hair. Remy hair is 'cuticle correct', which means that all of the hair lies in the same direction, to prevent matting and tangling. Their unique haircolor process produces a long-lasting haircolor with a very desirable healthy bounce, body and shine. Di Biase Hair Extensions USA haircolor shades will not fade, oxidize or change at any time. When your hair designer needs to reorder hair, you will never have to worry about having the new hair match any previously applied hair extensions.

Vikki Parman, CEO and Dale Aho, COO of Di Biase Hair Extensions USA exclaim, "We will always focus on providing you with superb quality! We will continue to provide ongoing education and support to your hairstylists, so you will feel confident wearing your professional hair extensions." Everything from the Fusion Hair bonds to the hair brushes made especially for hair extensions are of the highest quality. Di Biase Hair Extensions USA guarantees hair designers will be as excited about providing these products to you as Di Biase Hair Extensions USA is about providing them to hair designers.

**Diverse Bonding Techniques:** Di Biase Hair Extensions USA uses different bonds that offer diverse services with Fusion, Easy Clip, Weft and Sticker Hair. Di Biase Hair Extensions USA uses a special colored keratin bond that matches the hair used on the hair locks. This ensures a natural transition from your natural hair to the extended hair. The overall integrity of the hair extensions becomes nearly impossible to detect as the bond encompasses the hair shaft without penetrating the cortex. This also allows for easy removal of the hair bonds, with absolutely no damage to your hair. Their Fusion Hair is applied on a lock by lock basis. Their Di Biase Easy Clips are comprised of hair that is attached to a clip. You may easily put these in their hair on a temporary basis and remove without professional assistance. Weft Hair is attached to a piece of fabric and is sewn in as part of your hair. Their Sticker Hair Extensions, is the only adhesive system that lets a hair designer carry out a complete hair extension service for you, without the need to use any special bonding equipment. An innovative feature of Sticker Hair Extensions is the opportunity to reuse the hair locks multiple times. While you may temporarily wear them for special occasions, they will also last for up to one to two months with proper care.

Di Biase Hair Extensions USA is a very successful and fast growing company that provides the highest quality hair extension services available in the professional beauty industry, while certifying hair designers with the most diverse and advanced application techniques available today. Di Biase Hair Extensions USA strives to provide the best customized support systems including continued training for hair designers, so that women planning on getting hair extensions will always receive the best services possible.
