

HOME HAIR CARE FOR THE CLIENT

1. DO NOT SHAMPOO HAIR FOR 2 DAYS AFTER RECEIVING EXTENSIONS IN YOUR HAIR. The bond needs to cure. Shampoo or excessive pulling on hair will result in loosening the bond.
2. HAIR SHOULD BE BRAIDED OR PUT IN PONYTAIL WHEN GOING TO BED. This will prevent pulling and matting of the hair while you sleep.
3. NEVER, NEVER, GO TO BED WITH WET HAIR! This is a big no, no! Hair will mat!
4. ALWAYS USE GENTLE STROKES WHEN BRUSHING HAIR. Pulling on hair will result in breakage.
5. NEVER USE ANY PRODUCT CONTAINING SILICONE, GLYCERIN, LANOLIN OR ANY KIND OF OIL. These products will break down your bonds.
6. DO NOT USE ANY PRODUCTS THAT CONTAIN SULFUR SUCH AS DANDRUFF SHAMPOOS.
7. GO THROUGH YOUR HAIR EVERY DAY WITH YOUR FINGERS TO MAKE SURE YOUR BONDS AREN'T GETTING TANGLED. Very gently run your fingers tips through the hair.
8. SHAMPOO HAIR WITH HEAD LEANING BACKWARDS. This will help to prevent hair from tangling.
9. GENTLY MASSAGE SCALP AND HAIR WHEN SHAMPOOING.
10. ALWAYS MAKE SURE HAIR IS DRY AROUND BOND AREA.
11. WHEN STYLING WITH ANY HEATING ELEMENT, BE VERY CAREFUL NOT TO APPLY DIRECT HEAT TO THE BOND. Doing so will melt and soften the bonds.
12. IT IS OK TO SWIM. It is recommended to wear a cap—chlorine and salt can cause hair to tangle and mat. Always shampoo and dry hair after swimming using a pH balancing shampoo.
13. WHEN EXERCISING OR SWIMMING, IT IS RECOMMENDED TO WEAR HAIR UP OR IN A PONY TAIL TO PREVENT TANGLING.
14. NEVER COLOR OR PERM YOUR OWN HAIR EXTENSIONS. Always have your stylist do this service for you.

MAKE SURE TO MAKE A FOLLOW-UP APPOINTMENT AND KEEP IT WITH YOUR STYLIST, SO THEY CAN **CHECK ON YOUR EXTENSIONS.**
